

# Thank *You* Cards

**EASY PEASY MAC & CHEESY...**  
*The wedding celebrations are over, and you've returned from your honeymoon, but now it's time for the final task in your wedding journey: the thank-you cards. According to etiquette, you have 3-6 months to express gratitude to your guests for their presence and any gifts they've given. While this task may feel overwhelming, we ensure that your cards are personalized, straightforward, and effortless.*

## DUAL PURPOSE CARDS

SAY THANKS AND SEND YOUR FAVORITE WEDDING PHOTOS...

### ORDER:

After you receive your complete photo gallery, you'll have the opportunity to use your favorite shots.

## COMMON TYPES...

The two most common formats for thank-you cards are usually a double-sided printed card or a folded card. When you incorporate your wedding photos, you can save on the additional expenses of printing and sending out individual photos to guests since they'll have them on your card. Additionally, we offer the option to include a personalized message, sparing you from having to handwrite hundreds of notes and saving you valuable time. You can either provide us with the message to stylize or opt to use your actual handwriting for that extra personal touch.
