

# Bridal Shower *and* Bach Party

## ARE INVITES A THING?

*Typically, Bridal shower parties are hosted by your bridal party and family members, so although you may wish to mention that we can create your invitations, the execution will ultimately be up to them. On the other hand, Bach Parties are less formal and focus more on the experience, making digital invites a great fit for this type of event. These parties are typically organized by your Maid of Honor, alleviating any concerns you may have about this aspect. Similarly, we can design and provide invites tailored to the chosen theme, ensuring all the necessary details are conveyed without the need for postage.*

## HOW TO GET THE BEST...

Designing invitations for bridal showers and bachelorette parties is a joy for us because these events are often chosen to reflect the bride's unique style and personality, offering her a moment of genuine celebration. While the bride typically doesn't handle the planning for these occasions, her input may be requested. Informing your "party planners" that we can handle the design and creation of all invitations, signage, game cards, and personalized gifts for the day can help alleviate any stress, ensuring that everything is perfectly tailored for you and your guests.
